Structure*Gard*[™]

P R O T E C T O R P L A N

The **Structure*Gard* Protector Plan** provides the protection you need. Termites cause more than \$2 billion in damage every year. Should your home or business property ever become infested by subterranean termites, removing them will be very costly. It will be even more expensive if structural damage has gone undetected. The best defense against unforeseen structural repairs in the future is this exclusive protection plan for your home or business property. Our licensed Professionals return annually to perform a complete inspection, providing 100% protection for your structure.

Added Value

Annual monitoring also provides protection against other conditions that may go undetected. Your annual inspection will detect not only termites but also any water-related conditions — like plumbing leaks or moisture infiltration — which could affect components of the structure. This strategy is an important shield for one of your most valued assets — your home. Don't let termites or water take a big bite out of your equity.

What does Structure*Gard* cover?

If there is ever any new subterranean termite activity, we promise to treat the infestation promptly, at no extra cost to you. And if there is ever new termite damage, you will be covered for unlimited repairs as long as you maintain your plan. This is an annual agreement and can be extended for a nominal fee every year.

If any corrections are ever required, specialized technicians will promptly provide you with the high-quality service you deserve.

Which Structures qualify for Structure*Gard*?

Any structures where we have performed a Termite Inspection qualify for Structure*Gard* protection. This plan will extend coverage of structures with existing infestations that have been identified and rectified by our firm. More importantly, it covers any unforeseen, future infestations or damage. Structure*Gard* means 100% Protection!

Is Structure*Gard* transferable?

Yes. If you sell your property, any remaining coverage under Structure*Gard* is transferable to the new owner at no charge. This adds value to the property. As an added benefit, we provide you with a free Termite Inspection for the sale of the property as long as your plan is maintained.

Who do I contact to submit a claim under Structure*Gard*?

Just call us at **1.888.4.TIMES.UP (1.888.484.6378)** and we will promptly send a licensed professional to evaluate your concerns.
